

I am a recent subscriber to XM Radio and I love it. In addition to the variety of entertainment available, the weather and traffic is a huge benefit. In a society where we are all attempting to get 12 hours of work completed in an 8 hour day, time becomes a precious commodity. Access to instant weather and traffic reports are a daily need to the individual citizen. As these services are part of a subscription that XM Radio users pay for, they should retain access to these services.
